

CALL FOR PAPERS

<https://www.tamps.cinvestav.mx/~mmorales/cisma/>

The “*Computer and Information Security: Methods and Applications – CISMA*” workshop will be held as part of “2022 Encuentro Nacional de Computación – ENC 2022, in virtual format, on August 24-26, 2022, in Xalapa, Veracruz, Mexico. The main goal of *CISMA* is to bring together both the research and industry communities to present new results on all views of computer and information security. Contributions that describe new methods for computer and information security as well as their secure-and-efficient hardware or software implementations are welcome. The topics of *CISMA* include but are not limited to:

- *Security and Privacy in Cyber-physical Systems, the IoT, Cloud Computing, Data Science, Artificial Intelligence and Business Intelligence.*
- *Hardware/software Architectures for Information Security*
- *Methods, Protocols, or Systems based on Cryptography*
- *Methods, Protocols, or Systems based on Data Hiding*
- *Blockchain and its Applications*
- *Digital Forensics*
- *Network Security*
- *Malware Detection and Classification*
- *Digital Identity*
- *Security Architectures*
- *Security Testing*
- *Incident Identification and Response*
- *Vulnerability Assessment*
- *Mobile Security*
- *Dynamic Security*

Submission Guidelines

Authors are invited to submit original papers written in English that have not been published or submitted for publication elsewhere. Manuscripts are received via the [CMT3 platform](#).

Submitted manuscript should include the complete paper text, all illustrations, and references. The manuscript should conform to the IEEE format: single-spaced, double column, US letter page size, 10-point size Times Roman font, up to 8 pages. Papers written in Spanish are also welcome. If this is the case, the manuscript should provide the title and abstract in English, following the IEEE format previously described, without exceeding 8 pages.
